

WHY DO WE NEED A NEW HOSPITAL?

Space and obsolescence

- Current facility was designed for healthcare delivery in the 1960s
- Technology has created many new medical services
- Renovation is not economically feasible

Privacy and safety concerns

- Need for private rooms
- Need for private restrooms
- Need for privacy during admission
- Need for safe and level parking lot
- Privacy for admissions and patient procedures

Recruitment and Retention

A modern facility makes VCHS attractive to new and existing healthcare professionals and specialists.

HOW MUCH WILL IT COST ME?

Nothing — projected revenues of VCHS are expected to be sufficient to pay annual principal and interest on the bonds.

HOW CAN I LEARN MORE?

Learn more on the web at www.newerainhealthcare.com
